

Cole’s 9:34 PM lock — not a yes

Sep 23, 2026 thread · 5:51 PM Cole ProSal · 7:03 PM Dr. Kim \$9,900 · 9:34 PM Cole “company policy”

What he locked: \$250/hour in the building, **\$300 one-time on-call fee**, ProSal 23% quarterly. Pay “processed according to company policy.” He calls the 9/13 call a misunderstanding and says \$550/hour was never offered. **\$550 is his strawman.** You said two clocks: \$300/hour on call *and* \$250/hour in the building. Not \$550/hour for every hour. He was not on that call. Amy and Evan were.

25TH ADP — YOUR CALL VS HIS LOCK

Shift	Your call	Cole lock	Gap
Sep 8 · 4h hospital	\$1,000	\$1,000	\$0
Sep 10 · 12h hospital	\$3,000	\$3,000	\$0
Sep 14 · 4h hospital	\$1,000	\$1,000	\$0
Sep 15 on-call 8h	8 × \$300 = \$2,400	\$300 flat	\$2,100
Sep 15 in hospital 6h	\$1,500	\$1,500	\$0
Sep 19 Midtown 4h	\$1,000	\$1,000	\$0
ADP on the 25th	\$9,900.00	\$7,800.00	\$2,100.00

23% × his \$8,473.67 = \$1,948.94. That is below either hourly number, so **\$0 production on this check** under his quarterly rule. The fight on the 25th is only the on-call night.

MIDTOWN STARTING SEP 24

If you walk in after this email, they will say you accepted \$250 + \$300 flat. Same email: Amy and Evan yes-or-no on the 9/13 call, and **cover Midtown — this is notice, not a no-show**. Do not debate Uber, GLG, or industry rates. Do not accept the \$550 frame.
